

## STARVING MEN GROW DESPERATE

Attack on Officials Threatened by Belgians in the Captured Cities.

London, Eng., Oct. 28.—"It is feared that in their desperation the hungry people will attack the authorities. This will cause serious loss of life."

So stated Capt. T. F. Lacey, representative of the American commission for relief in Belgium. In a telegram sent to Herbert C. Hoover, chairman of the commission, from Rotterdam Thursday, Capt. Lacey added that he had been told by representatives of the national relief committee that in Brussels, Charleroi, Liege, Namur, Mons and Dinant 2,000,000 persons were being fed by charity and that only four days' supply of flour was on hand. In the vicinity of Liege conditions were more desperate than elsewhere, it was said. There the necessities of life were urgently needed.

"Beans, peas and rice are acceptable," Capt. Lacey's telegram said. "But the great necessity and the urgent appeals from all concerned are for wheat flour."

### AUSTRIAN SOLDIER WRITES

REAL OPINION IS SHOT

Venice, Italy, Oct. 28.—Viennese relatives of a soldier who has been fighting in Galicia recently received from him a field post card saying that things were not going at all well with the Austrians and that personally he would not be sorry to be taken prisoner by the Russians.

On the other side of the post card was written officially, it is said, "shot by order of the court martial."

## ALHAMBRA

DEAN, DORE AND DEAN

Singing, talking and dancing trio who take the audience by storm.

MUSICAL SHIRLEYS

Beautiful vocal electrical effects, combined with music of the first class, make their act one of the best ever seen here.

Today's Pictures:

"WILL O' THE WISP"

A well acted drama.

This week's vaudeville at the ALHAMBRA is undoubtedly the best yet brought to this theater.

## Stocking Black Hills Streams

In many of our streams and lakes fish would be extinct, the art of fishing in our country would be as lost as the art of Egyptian embalming, and Fridays would mean but a grim succession of famines to our people, were it not for the care of our government. Federal fish hatcheries and nurseries bring up millions of little fish, raise them past the age of crop, codie and the mumps, and in their sturdy youth place them back in their native waters. The government employee in this picture is stocking the stream with hardy trout which will later try the skill and the imagination of the fisherman.

### ENGLAND TO RELEASE SHIPS CARRYING COPPER

Washington, D. C., Oct. 28.—After a conference between Sir Cecil Spring-Rice and acting secretary Lansing, of the state department, it was stated today that Great Britain would probably release the vessels carrying American copper detained at Gibraltar.

It was learned that the Italian government already has declined an embargo on the exportation of copper to the belligerent countries, but that the notification had not formally reached England. As soon as the fact is communicated through official channels the steamers destined to Italy will be permitted to continue their voyages according to the view of British officials here, and some other circumstances in connection with the ships not yet reported develop. It is not known yet whether Sweden and Greece have declared embargoes on the exportation of copper.

### SHIP IN DISGUISE DID NOT VIOLATE LAWS OF WAR

Washington, D. C., Oct. 28.—For the German cruiser Emden to disguise herself by flying Japanese flags was not contrary to the regular recognized practices of war, naval officials here pointed out today. Before firing on a foreign ship, however, or committing any other hostile act, they say, the Emden would be compelled, under international law, to haul down the foreign flag and hoist that of her own country.

No objection could be made, it was said, even if the Emden were to fly the American flag to disguise herself, provided she took it down before attacking a vessel.

6000 JAPS REACH SWITZERLAND. Bern, Switzerland, Oct. 28.—About 6000 Japanese students who had been expelled from German universities have arrived in Switzerland, most of them reaching Zurich and Geneva.

## Titled Nurse Is Heroine of War

London, Eng., Oct. 28.—Millicent, dowager duchess of Sutherland, has returned to Belgium to resume her Red Cross work. Her marriage last week to Maj. Percy Desmond Fitzgerald, of the 11th Hussars, is one of the most interesting romances of the war.

DUCHESS OF SUTHERLAND.

war. The dowager duchess became acquainted with her soldier lover through her interest in Red Cross work. Before her marriage to the duke of Sutherland, who died in 1912, she was lady Millicent St. Clair-Breskine, daughter of the earl of Roslyn. Maj. Fitzgerald won distinction and a Victoria Cross for brave conduct in the South African conflict.

### GERMANS, ENTRENCHING, ARE PREPARING TO RETREAT

London, Eng., Oct. 28.—The Germans are preparing to retreat from their present positions in Belgium, according to the Daily Telegraph's correspondent at the front, who tells of German entrenchments thrown up along the proposed line of retreat to Ostend. The wounded are being removed from Bruges to Brussels.

"All that has been said regarding the severity of the fighting around Dixmude," continues the dispatch, "has been too mild. Dixmude itself is in ruins and not a single house is standing in the adjacent villages of Beersel, Keylen, Essen and Vladslo. All five places are practically a shambles, the streets heaped with German dead left behind in the retreat forced by the allies' artillery."

"Many German stragglers have been found in a condition of hysteria, shattered by the ordeal through which they had passed. A sign of demoralization in the German ranks is the number of downers and stragglers seeking sanctuary beyond the Dutch border. The German authorities have sent out patrols especially to prevent these desertions."

### GERMANY MAKES ALLEGED OFFER TO PACIFY FRANCE

London, Eng., Oct. 28.—Germany has made a peace offer to France, according to the Daily Chronicle's Paris correspondent, who says the move was made with a view to getting France out of the conflict, leaving Germany with a free hand to deal with England and Russia.

The tender is said to have suggested the cessation by Germany of Metz and possibly a portion of Alsace to France. The offer, according to the correspondent, was rejected.

F. G. Billings Piano Company And the Famous Wm. Knabe Piano. The Wm. Knabe Piano today is considered by the greatest artists and musicians to be the world's best piano.

While other makes of pianos have failed to maintain high standards and are today sold upon their past reputation, the Wm. Knabe today is acknowledged by the world's best critics to be even better than the Wm. Knabe made since 1837. Mr. Billings was the first to place the piano in the high grade piano, the Wm. Knabe, and he was offered other agencies, but selected the Wm. Knabe as the most artistic piano of the day and most suitable for dry climates. Godowsky, Rasth and many artists use and endorse the Knabe. The Knabe piano is the sensation of the day. A wonderful instrument, reproducing the exact playing and interpretation of the great artists. Be sure and call at the Billings store and hear this instrument. You are cordially invited.—Advt.

### MONITORS SAIL UP CANALS STRIKING AT HEART OF FOE

London, Eng., Oct. 28.—The Daily Telegraph's Dover correspondent says:

"The work done by the British monitors and other shallow draught vessels is playing a more and more important part in the fighting along the coast. These boats make frequent trips up the canals and rivers, striking unexpected blows into the very heart of the enemy's forces. On many occasions the boats got to such close range that the crews were able to employ rifle fire against the enemy."

"The speed of the ships always enables them to get out of the way before the Germans can place artillery advantageously against them."

### GREEK OCCUPATION OF ALBANIA ALARMS ROME

Rome, Italy, Oct. 28.—A report that Greece has landed 1200 soldiers at Santi Quaranta, thus taking possession of the southern part of Albania, which gives it entire control of the Corfu channel, is causing a profound impression in Rome, as this step on the part of Greece was strongly opposed by the London conference.

### BOTHA REPORTS BEYER'S COMMAND SCATTERED

London, Eng., Oct. 28.—A Reuter dispatch from Cape Town says that Gen. Botha, commander of the defence forces, reports that the rebel Gen. Beyers's commands have been scattered and are not likely to reunite. Gen. Beyers's whereabouts are unknown.
